Statewide County Nursing Home Survey

Dear County Nursing Home Administrator,

As each of you is well aware, this is a critical time in the life of county-owned nursing home facilities. Reimbursement rates and levels are threatened, benefit costs continue to rise, IGT payments in the future are uncertain, and counties are raising questions about what levels of nursing home subsidies they are willing to sustain in the future. As a result, some counties have decided to close or sell their nursing homes, and others are raising questions about the future of their homes.

In this context, CGR (Center for Governmental Research) is conducting a statewide study in conjunction with LeadingAge New York, funded by the NYS Health Foundation. As you know, CGR has completed two other statewide nursing home studies, and has worked with many individual county nursing homes across the state.

This current study has two main objectives:

- 1. Document the tangible results—positive and negative, intended and unintended—of previous decisions to close, sell or maintain county homes, and
- 2. Provide data-driven policy guidance to the state and to counties that are deciding the future of their homes.

As a crucial component of this objective study, the survey that follows is designed to obtain needed current information from each County nursing home, regardless of your status. Even if your home is currently in the process of being sold, or sale is under consideration, it is important for the future of county homes in general that we receive complete requested information from each existing county facility. County Nursing Facilities of New York (CNFNY) is also cooperating in this study, and urges each county home administrator to ensure that this survey is completed in its entirety. The CNFNY executive committee reviewed drafts of the survey, and a number of revisions were made based on their thoughtful suggestions.

All responses will be returned directly to CGR, and only CGR will see the completed surveys. All analyses will be treated in strictest confidence, and all findings will be reported only in the aggregate, with no information reported in any way that could be linked to a specific facility.

We know how busy you are, and acknowledge that this survey will take some time to complete. We apologize for its length, but have tried to strip it down to the most essential questions affecting the future of county homes. Thank you very much for taking the time to complete the survey. We hope that the importance of the issues addressed will help make its completion a priority. It may be helpful to have financial reports and cost reports easily accessible as you complete aspects of the survey. You may also find that it is helpful to have more than one person complete portions of the survey. To that end, you can complete the survey at different times and/or by different people by simply saving (but not submitting) the portions that have been completed and return to it or have others return to the survey at any time. You can open, save and return to the survey document as often as you wish, up to the point of final submission.

If you need more space for specific responses, simply add the comments in a word document, indicate the name of your nursing home and the question number, and return as an email attachment to CGR.

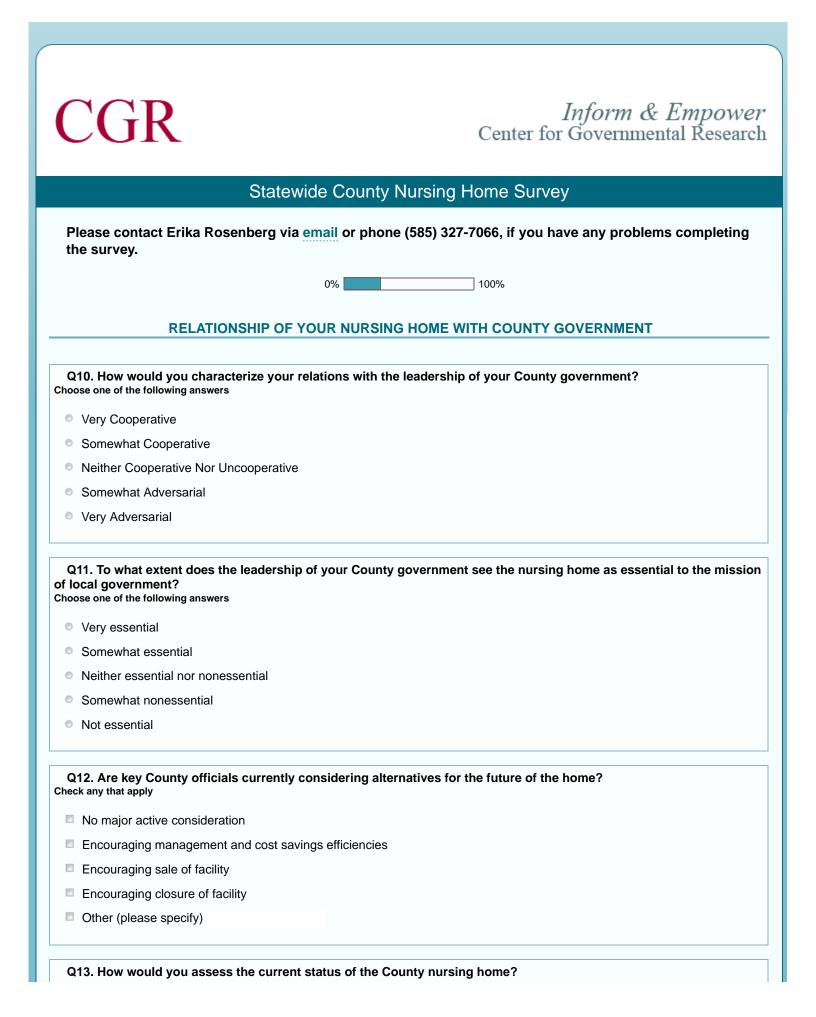

Please take the time to complete the survey as accurately and thoughtfully as possible. Your input is critical, and is

much appreciated. Please submit it as instructed at the end of the survey, if at all possible by no later than [date?].
If you have questions about the survey, please contact Erika Rosenberg (585-327-7066, erosenberg@cgr.org) or Don Pryor (585-327-7067, dpryor@cgr.org).
Thank you very much for your prompt, thoughtful attention to this important issue.

? Please explain in box provided.	
Q21. What would be your top two concerns if the	e County home were to be <u>sold</u> ?
Concern 1	
Concern 2	
Q22. What would be your top two concerns if the	County home were to be <u>closed</u> ?
Concern 1	
Concern 2	
	unty should get out of the direct provision of nursing home services?
If yes, please describe	
Choose one of the following answers	
No	Please enter your comment here:
 Yes 	
Please describe in box provided.	
Q24. If the County were to no longer own and opera alternatives available elsewhere to your residents a	ate its nursing home, are there reasonable and future similar residents? If yes, please elaborate.
Choose one of the following answers	
No	Please enter your comment here:
Yes	
Please indicate in box provided.	
Q25. If the County nursing home were to go out oprotect the interests of your residents and potentia	of business or be sold, what should your County government do to al future residents?

Q26. If the County nursing home were to go out of business or be sold, what, if anything, should your County government do to protect the interests of your staff?

Q27. In your estimation, what is the probability that the County nursing home will be <u>closed</u> within the next 2 to 3 years? Choose one of the following answers

- Almost no probability
- Slight probability
- 0 50-50
- Fairly probable
- Highly probable

Q28. In your estimation, what is the probability that the County nursing home will be <u>sold</u> within the next 2 to 3 years? Choose one of the following answers

- Almost no probability
- Slight probability
- 0 50-50
- Fairly probable
- Highly probable

Q29. Under what circumstances do you believe the County will continue to support ownership and operation of your nursing home?

Q30. The following table addresses alternatives for Limiting the County's Role in Nursing Home Care.

For each option listed, please indicate if it has been considered, attempted, or implemented within the past 3-5 years by your County and/or nursing home.

Statewide County Nursing Home Survey – FUTURE OF THE COUNTY NURSING HOME
